TB-65B designed for accurate temperature control with power memory device, restoration or recovery

PID microprocessor temperature control with over-temperature alarm dual time display.

TB-65B uses of low-noise air motor and stainless steel cylindrical curved corner box, surface anti-rust treatment.

MODEL NO.	TB-65B
Heating Power	1.5KW
Machine Size (WxDxH)	550x550x840mm
Power Supply	AC 220V
Temperature Range	RT +5~3000°C
Weight	46kg
Timer	1~9999min
