

# Diamond Suspension

Top Tech offers both monocrystalline diamond suspensions and polycrystalline diamond suspensions. Polycrystalline diamonds will break into several pieces with sharp cutting points during polishing which is good for polishing of hard and brittle material.

| Order No.   | Monocrystalline diamond suspension |       |        |
|-------------|------------------------------------|-------|--------|
| S0703080902 | 0.1um                              | 300ml | Gray   |
| S0703030902 | 1um                                | 300ml | Blue   |
| S0703040902 | 3um                                | 300ml | Green  |
| S0703050902 | 6um                                | 300ml | Yellow |
| S0703060902 | 9um                                | 300ml | Red    |

| Order No.   | Polycrystalline diamond suspension |       |       |
|-------------|------------------------------------|-------|-------|
| S0703AA0002 | 0.1um                              | 470ml | Black |
| S0703AA0105 | 1um                                | 300ml | Milky |
| S0703AA0102 | 1um                                | 470ml | Black |
| S0703AA0302 | 3um                                | 470ml | Black |
